## FINISH SATURDAY

BIG DRAINAGE DITCH WILL BE COMPLETED THEN.

## HAS TAKEN TWO YEARS

Forty-Eight Miles of Crooks and Turns in the Nodaway River Have Been Shortened to Only Sixteen.

If no accidents occur to delay the work the biggest drainage project ever undertaken in this section of the country will be completed Saturday or Sunday, when the big dredge, employed by Nodaway drainage district No. 2, will reach a point in the river near the Old Whitman mill, says this week's Burlington Junction Post.

The machine will have finished its sixteen mile journey and a straight channel thirty-two feet wide and fifteen feet deep will carry the water of the Nodaway from Braddyville, Ia., to Quitman. The old river bed is forty-eight miles between these points and the new channel will carry the water in a third or less time, and has a drop of three feet to the mile.

The land of the Nodaway river bottom is considered the most fertile in the country, but crops have always been uncertain on account of the overflow during the spring and summer rains. When the seasons were favorable enormous crops of corn and small grain were produced, but the frequent flooding of the low lands make conditions so uncertain that a number of the most enterprising farmers and stockmen who owned land on the bottom investigated the results obtained in other sections of the country that had been drained. They found that where the work was properly done the results had proven highly satisfactory.

In this way the Nodaway drainage district No. 2 was formed, the incorporation being perfected in August, 1910. Bonds to the amount of \$75,000 were sold to Compton & Co. of St. Louis and bids were received from a number of dredging firms. The contract was awarded to C. H. Sternberg & Sons of Chicago at 6.45 cents a cubic yard.

The machines were assembled about a half mile south of the bridge east of Braddyville and work was commenced at once straightening the channel.

The dredge was kept at work day and night, and when in good running order could dig about 200 feet a day. Many accidents to the machinery, however, delayed the work, and it has taken a little more than two years to complete the contract.

According to the contract the ditch was to be twenty-six feet wide at the top and eighteen feet at the bottom. The dredge used in the work, however, was thirty feet wide and the ditch at the top averages about thirty-two feet. The depth varies according to the land passed through, and in some places is twenty feet deep, while in others it is not more than twelve, but the average depth is fifteen feet. The new channel will shorten the course of the river from forty-eight to sixteen miles, and the drop of the current will be three feet to the mile. This will cause the water to flow very swiftly, and with the caving of the banks the channel will cut to four times its present width. In some places near Braddyville, where the channel was first straightened, the ditch is about 100 feet wide. With the swift current a channel of this size will carry away a great amount of water.

As soon as the machine finishes its work the dam across the ditch on the C. E. Walker farm, north of town, will be opened and the current turned into its new course. The two large dams on the old river will not be removed and this will assist in throwing the water into the channel.

7500 acres were included in the project and a tax of \$10 an acre was levied on each acre, which makes the total of \$75,000. The bonds draw 5 per cent interest and the land owner pays on an average of 60 cents a year per acre. It is estimated that this will take care of the interest and pay the bonds off in twenty years. An election of officers and directors is held each year, and this will be done until the end of twenty years. The present officers and directors are: Wm. Blackford, president; G. C. Clary, secretary and treasurer; J. W. Smith, Wm. Carter and Jas. Corken.

The big dredge has been under the management of Louis Sternberg the past year and the machine has made excellent time on the last lap of its

journey. "Louie" seems to have a knack of inducing it to do its work with as little balking as possible and since crossing the road at the Jas. Corkin farm it has behaved fine. A force of eight men are required to "man" the machine. The Sternbergs have made a bid on a large job in Indiana and if they receive the contract it is probable that Louis will go there to assume charge.

A different plan of taxing the land is used in Indiana to the one employed here. When the land is assessed that nearest the river pays the heaviest tax, as it receives the most benefit from the drainage. The further the land is away from the ditch the less tax it pays and some of the farms that are never affected by the over-flow are taxed a small amount on account of the advantage in drainage. This method is regarded as best for all concerned.

## PIRATES AND NORMALS WIN.

High School and Business College Fives Defeated in City Basket Ball Tournament.

Standing of the Teams.		
	Won.	Lost.
Normal	8	0
Pirates	4	4
High school	4	4
Business college	0	8

Both games in the city basket ball tournament played Thursday afternoon at the Normal gym were won by overwhelming scores. In the first game the Pirates smothered the Business college team by a score of 59 to 8, and in the final battle between the high school and the Normal the teachers had little trouble in winning by a 34 to 6 count. The collegians could put up but little opposition to the buccaneers, and Hoffman, Eek and Wray scored baskets almost at will. Wray headed the list with ten field goals.

In the first half of the Normal-high school game the highs were held scoreless, while the teachers counted thirteen points. In the final period the high school five managed to count six points on two field goals and a couple of free throws, and the Normals got 21. Vern Seymour, the Normal's twinkler at guard demonstrated his ability to perform at forward by caging six field goals.

Next Thursday will mark the close of the tournament with the leaders playing the cellar champs and the Pirates and highs fighting it out for second place. There is no doubt as to the outcome of the first game, but the Pirate-high school scrap promises to be a "hummer." Each team has won a game, and naturally both teams predict a victory. The writer predicts a victory for the Pirates, due to the fact that the Pirates have improved wonderfully since the last meeting, while the highs seem to have "gone back."

## GAME TONIGHT AT NORMAL.

Team Will Play Wesleyan College of Cameron and Promises to Be a Good One.

"A Normal victory by a close score" is the general prediction as to the outcome of the basket ball game tonight at the Normal gym between the green and white quintet and the Missouri Wesleyan five from Cameron. The Methodists played Tarkio college at Tarkio last night, and a report reached here that they defeated Tarkio, but at press time the Wesleyan boys hadn't arrived in the city to verify or deny the report. However, the locals have reason to know that if Wesleyan is putting up the article of ball that will win from Tarkio on their home floor, Normal stands a slim chance of getting away with a win. Coach Moore announced the following line-up for tonight's game, which starts at 8 o'clock: Vandersloot (captain), and Daise, forwards; Perrin, center; McClintock and Seymour, guards; Quinn, Lamar, Woodward and Strader, substitutes.

## Returned to New Mexico.

Mr. and Mrs. Boyd Boyer of Artesia, N. M., who have been visiting in and near Maryville with Mr. Boyer's father, John Boyer, and family, for two months, left Thursday evening for their home.

## Is Charter Member.

Charles E. Kane, a son of Mr. and Mrs. John Kane of this city, who is attending the state university at Columbia, is a charter member of a new social fraternity, the Delta Omicron, which has been installed at that place.

## Two New Deputies.

Sheriff Ed Wallace has appointed Bert Mack of Maryville and George Yates of Lincoln township as deputy sheriffs.

## RIDE TO SCHOOL A NEWSY LETTER

CHAMPION HILL DISTRICT HAULS CHILDREN TO PARNELL.

## HAVEN'T MISSED A DAY

District Finds It Cheaper to Pay Tuition and Drayage and More Satisfactory Than Maintain School.

The only district rural school in the county, and probably in Northwest Missouri that is transporting pupils from that school district to another is the Champion Hill school district, near Parnell. The Champion Hill district is abandoned for this year and the district is sending eight pupils in that district to the Parnell school, and three pupils to the Pleasant View school.

The Champion Hill district pays the expenses of the transportation and the tuition for the Parnell school. A three-seated hack is used and it is all enclosed. The cost to the district is much less by sending them to Parnell than to run a school in that district, and the people are better pleased with the plan, as greater interest is taken in the school work by the pupils than heretofore, and that there is more rivalry and inspiration among them.

The transportation plan has worked to good advantage this winter, and the eight pupils have attended school every day, with the exception of days of sickness. The weather has been very good and not a single day has been missed on this account. One of the Parnell teachers lives in that school district and she goes every morning with the pupils in the hack to Parnell. She is Miss Angie Walder.

The plan of transportation is still an experiment in this part of the country, but it is working to great success and probably other schools will take the plan up next year.

## PRATHER HOUSE BADLY BURNED.

Fire Which Started in Attic Destroyed the Attic and the Second Story of Residence.

The old Prather home, on West Second street, which is owned by Miss Bettie Prather, who now lives in Brookline, Mass., was badly damaged by fire this Friday morning. The house was occupied by Mr. and Mrs. A. O. Mason and family.

The cause of the fire is not known, but it started in the attic, and the entire roof was ablaze at once. Neighbors first discovered the blaze and notified the Mason family, and also the fire department. It took the fire department about two hours or so before the fire could be put out, owing to the hard time the firemen had in fighting the fire, and owing to the wind and cold weather. During this time coffee was served to the firemen by F. P. Reuillard, Mrs. G. A. Nash, Garten & Trusty, Charles C. Hellmers and Mr. and Mrs. R. G. Sanders.

It is not known what the damages will be, but they are estimated at \$1,500 to \$2,000. The house was fully insured. A few household goods of Mr. Mason were also damaged.

The Prather house is an old landmark of Maryville, the house being built about fifty years ago. The Prather family has made their home there for many years, until a few years ago, and the residence has been remodeled a number of times.

## MANY WENT FROM HERE.

Mothers' Circle Guests of Sister Club at Pickering Short Course.

Quite a large company went to Pickering Friday to attend the short course institute being held by the state board of agriculture. The afternoon program is intended to be of especial interest to the women, because the Women's club of that place asked for speakers that would give them special instructions for home work.

The Mothers' Circle of Maryville accepted an invitation from the Pickering club to be its guest today, but owing to the severe change in the weather all the members could not go. Those who attended were Mrs. W. C. VanCleave and her guest, Mrs. J. S. VanCleave of Moberly, Mo.; Mrs. Leslie Dean, Mrs. Omar Patterson, Mrs. D. W. Snoderly, Mrs. J. R. Brink, Mrs. George Moore, Mrs. S. E. Farmer, Mrs. William Everhart, Mrs. E. B. Sheldon, Mrs. W. A. Townsend, Mrs. E. T. Godsey, Mrs. J. W. Ray, Mrs. D. E. McDonald.

Miss Jessie Mutz, who has charge in domestic science at Pickering, accompanied the club to Pickering, also County Superintendent Oakerson.

## A NEWSY LETTER

BILLY JOB RINGS THE CHANGES FROM GRAVE TO GAY.

## THERE'S TOO MANY JOBS

Sinecures With Big Pay That Should Be Abolished—Talk on Fortune Teller Bill Creates Merriment.

(By William Job.)

Jefferson City, Jan. 30.—Both houses of the assembly adjourned Wednesday before noon in honor of Mike K. McGrath, the news of whose death reached the assembly at the time when the committee substitute for the McGrath municipal primary bill was up for consideration. I can remember Mike McGrath in state politics as far back as I can remember anybody. He was secretary of state 16 years and has represented his district in the state senate and house of representatives several times. His desk and chair are draped in mourning and today a committee from both houses was appointed to attend the funeral, and floral offerings were sent.

The city was full of new faces yesterday as a delegation from St. Louis was before the joint senate and house committee on municipal corporations in behalf of the Bates home-rule bill. There was also a gathering of good roads people from all over the state to discuss road legislation. It seems they had a fall out over proposed laws and came to very little understanding. Congressman Shackelford came from Washington to attend this meeting, and delivered an address before the highway association explaining the good features of the bill he has now pending in congress. One of the features is that the postal department pay an annual rental of \$25 per mile for rock roads, \$20 for gravel roads and \$15 for dirt roads. These roads are to be rural mail routes, and the above amounts are to be applied on the roads and they are to be kept in proper condition by the county for the mail services. The committee on roads are flooded with bills and all kinds of information that is both practical and radical on the subject. Different conditions in different parts of the state may be partly the cause of it. The roads leading out of Jefferson City are few and far between, on account of the roughness of the county, but all the main roads are good crushed rock roads. Our roads run on lines. Roads here run any old way you can find a place for them, and very seldom more than a few rods in the same direction. When you think you can drive out in the country on one road and back on another you are fooling yourself. You have got to come back to the city and start over again. I read somewhere—I believe it was in the Bible, but I am not sure of that, however—that in olden times all roads led to Rome. I never could understand how that was until I came here. All roads here lead to Jefferson City—that is, wagon roads—and I am of the opinion the same conditions existed in the time of Rome.

There was quite a delegation of county clerks here yesterday working for an increase in pay for deputy hire. I am of the opinion in counties like Nodaway there should be an increase of a few hundred dollars.

Representative Claiborn of St. Joseph has introduced a bill to continue the present contract system of the employment of convict labor at the prison, but increasing it from 70 cents per day to \$1 per day, 30 cents of which must go to the families of the convict or held in trust for him until his time expires. I think it's a good bill and ought to pass, but believe the state should receive \$1.50 per day. The automobile law has passed and is ready for the governor's signature. The suffragettes have begun to get busy and we can expect some legislation along that line.

It seems that Governor Major's utility bill is going to meet with opposition all along the line, and if it passes may carry a number of amendments. It seems that some of the legislative body think of nothing else but to prepare bills to create more offices and increase salaries. There are quite a number of posts now that cost the taxpayers a good sum that could be done away with very easily. State game warden, hotel inspector, etc., are nothing but a joke.

There are numerous petitions read every day from every part of the state, both in the senate and house, asking for the passage of the county unit bill.

I think several petitions have been received asking that the law be so

changed that the county will be liable for damages to anyone through the neglect of bridges and roads.

Senators Stone and Reed are in the city now. George Walker, the Maryville contractor, was here figuring with a Jefferson City architect.

The primary bill was up for engrossment in the house today. An amendment was offered giving the state committee the right to name the place of meeting. There was but one vote against the amendment and engrossment. The object of the amendment was to steer clear of being robbed by the Madison hotel. Col. Bill Phelps made the statement on the floor that they had charged him \$25 for a cot, supper and breakfast. Representative Boyd made the same statement. Representative Hays' stated they charged him \$20. Representative Moore made the statement that the manner Jesse James used to secure money was more honorable.

The fortune tellers bill was up for engrossment today. Representative Orr was telling how a fortune teller secured \$1,000 from an ignorant old lady down in his county to tell her where her husband went after death. Representative Dumm asked to interrogate Mr. Orr, who consented. He asked him if he didn't think his wife would give a like amount to know where he went, which brought the house down. Mr. Orr answered by saying his wife knew very well where he would go.

I suppose people are the same the world over. On my way from breakfast the other morning I got into a jam in front of a department store that in some respects was like the governor's reception. On inquiring the cause, I learned there was a lace sale on for the morning and ladies of all age, size and color were tramping each other's corns while they waited for the doors to open.

## SUIT ON NOTE DISMISSED.

The Case of Karl Schmitt vs. Joseph Wolfer of Clyde Was Settled Out of Court.

The case of Karl Schmitt of Idaho against Joseph Wolfer of Clyde was dismissed Friday as the suit has been settled out of court.

In August, 1910, Mr. Wolfer went to Idaho and purchased 160 acres of land for \$100 an acre, and gave his note for \$14,000 for the balance to Karl Schmitt. Mr. Wolfer soon learned of facts which made him think he had been cheated and so he refused to pay a \$4,000 note which was due, and also payment on three other notes which were not due. Schmitt brought suit in Maryville for the \$4,000 note, and the case was settled out of court by George Robb Ellison, of Shinabargar, Blagg & Ellison, who recently returned from Idaho, where he was in conference with Mr. Schmitt. By the settlement all of the notes were returned to Wolfer.

## RETURNED FROM NEW MEXICO.

Editor Fred Hull Back From the Sunny South and the Full Possession of His Health.

Editor and Mrs. J. F. Hull and little daughter, Elizabeth, returned Thursday night from a several weeks' visit in Artesia, New Mexico, where Mr. Hull has been for the benefit of his health. He was much weakened from a sick spell when he went there, but the change and rest has worked a miracle and he is now in full possession of his usual good health and fine spirits. He will be back at the Tribune office on Saturday.

His many friends are glad to have him back and to know that he has regained his health.

## SPECIAL COUNCIL MEETING.

Met Friday Afternoon and Authorized B. of P. W. to Get Remainder of Money.

A special session of the city council was held Friday afternoon and permission was granted to the board of public works to get the remaining \$20,000 out of the \$100,000 water works bond issue. Only \$80,000 was taken out of the \$100,000 issue. When the bond issue was sold the entire issue was to be taken by the Commerce Trust company, but only \$80,000 was received for eighty bonds. The money for the remaining bonds will be received soon.

## Brought Wife to Hospital.

Mrs. Nic Craig returned to her home in St. Joseph Wednesday evening from a day's visit with her sister, Mrs. H. J. Schaub.

## A HOUSE VICTORY

DRYS PUT UNIT BILL ON CALENDAR IN SPITE OF REPORT.

## WILL PASS THE HOUSE

Big Majority on Test Vote Indicates Easy Sledding in Lower Branch—Would Drive Out Saloons.

Special to The Democrat-Forum.

Jefferson City, Jan. 31.—The "wets" and "drys" went to the mat tonight on the county unit local option bill before the house committee on criminal jurisprudence, and the committee reported the bill to the house adversely by a vote of 6 to 5.

On motion of Representative C. M. Hay of Calloway the bill was placed on the calendar of the house, notwithstanding the adverse report, and was carried by an overwhelming majority.

The indication, according to reports is favorable to the bill passing the house.

If the bill should pass it would close the saloons in Maryville and other towns in Missouri. Frank Farris, a former state senator, represented the liquor men, and C. M. Hay the "drys." A large delegation of W. C. T. U. women asked the committee to report the bill favorably.

## FUNERAL SERVICES AT HOME.

Rev. Claude J. Miller Conducted the Services of the Late W. H. Hawkins—Burial in Oak Hill.

The funeral services for the late W. H. Hawkins, whose death occurred in Oklahoma City, Okla., Wednesday morning, were held at the home of his daughters, Misses Laura and Ada Hawkins, at Seventh and Mulberry streets, at 3 o'clock Friday afternoon, the body having arrived on the noon Burlington train.

The services were conducted by Rev. Claude J. Miller of the First Christian church. Burial took place in Oak Hill cemetery. The pallbearers were Mr. J. R. Brink, Judge J. H. Saylor, S. G. Gillam, W. W. Glass, Ed F. Hamlin, J. W. Ray.

## LEFT FOR JEFFERSON CITY.

W. A. Blagg and President Taylor to Capitol City to Work For Normal Appropriations.

W. A. Blagg, president of the board of regents, and Dr. H. K. Taylor, president of the Normal, left Thursday evening for Jefferson City, where they are to work in the interest of the Normal appropriations. The appropriation committee was in session at that place and Mr. Blagg and Dr. Taylor appeared before the committee and urged that the Normal here be given \$123,000, the amount they are wanting.

#### Miss Helen Ford Married.

Mrs. J. A. Ford of 128 South Main street received a letter Friday morning from her daughter, Miss Helen Ford, which stated that by the time she received her letter she would be the wife of Mr. Glade Bradley, who has been in the real estate business in Maryville several months with his brother-in-law, Byron Rhodes. Miss Ford left Maryville Thursday forenoon on the Wabash train, telling the newspaper reporters there that she was going to Grand Island, Neb., for a month's visit with Mr. and Mrs. John Force. Mr. Bradley accompanied her to the train, and it was noticed that he got on the train as it was leaving the station. Nothing was thought of this, however, as it was supposed he would accompany her as far as Conception. The young people have been keeping company for several months, but their attachment was not looked upon as anything serious by friends or relatives, and the news in Miss Ford's letter to her mother is a surprise to everyone. The letter did not state when or where they were to be married. Mr. Bradley wrote a letter to his brother-in-law, Mr. Rhodes, which was received Friday morning, telling him he would be married by the time he received the letter, and that they would make their home in Grand Island, Neb., where he has a position.

## MADAM! IF YOU DON'T FEEL RIGHT TAKE DELICIOUS "SYRUP OF FIGS"

WASTE-CLOGGED BOWELS, TORPID LIVER AND DECAYING FOOD IN STOMACH CAUSE THE SICK HEADACHE, GAS, BACKACHE, SALLOWNESS, BILIOUSNESS AND INDIGESTION.

All women get bilious, headachy, morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regular; no more constipation, gases, pains and aches.

It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best. But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse with contempt, the so-called Fig Syrups sometimes substituted to fool you. The true, genuine, bears the name California Fig Syrup Company; look for this on the label.—Advertisement.

## PRESIDENTIAL RECALL BEATEN

Senator Bristow Seeks to Amend Proposed Six-Year Term Act.

### OTHER PROPOSALS PENDING.

Wide Variety of Conditions and Exemptions Before Senate—Dixon Questions Motives of Those Who Want Change.

Washington, Jan. 31.—Presidential terms ranging all the way from two to six years, prohibitions against second terms and third terms; exemptions that would affect Roosevelt, Taft and Wilson, and proposals for the recall and the direct popular election of presidents, were thrust into the senate in rapid succession in the first day's consideration of the constitutional amendment limiting a president to a single term of six years.

In a session filled with lively debate, Senator Bristow's proposal that a president could be recalled at any regular election was voted down, 58 to 10, and Senator Hoke Smith's amendment to make the single term four years, instead of six, was defeated, 42 to 23.

Over a dozen amendments were pending when the senate recessed.

Senators Dixon and Poindexter (Prog.), Bristow (Prog-Rep.) and Lodge (Rep.) led the fight against a restriction of the presidential term.

Senator Williams (Dem.) proposed a four-year term with the privilege of re-election, but his amendment was so drawn as to prevent Colonel Roosevelt from seeking another election.

### Ten for Presidential Recall.

The defeat of the Bristow amendment for recall of the president followed a short debate, in which Senator Bristow urged that to make the federal administration properly responsive to public demand the people should have the right to change the president when they change congress. The vote on the recall amendment mustered ten votes only in its favor, the following senators voting for it: Ashurst, Bristow, Clapp, Dixon, Gronna and Poindexter (Prog-Rep.); Martine, Owen, Perky and Thomas (Dem.).

The candidacies of Roosevelt, Wilson, Bryan and Taft figured in the fight throughout the day. Senator Borah said President Taft had not used the power of his office for his own re-election in 1912 to any greater extent than President Roosevelt had used it in 1908 for the election of Mr. Taft.

"President Roosevelt wanted Mr. Taft nominated because he believed Taft would carry out the principles to which the Roosevelt administration was devoted," said Senator Borah. "A president who would not use every effort to perpetuate his policies would not be worth his salt."

### Answers Senator Hitchcock.

Senator Hitchcock asked if it was "not generally believed Roosevelt favored Taft's nomination in 1908 so he himself could be a candidate in 1912."

"I know the senator himself does not entertain such a thought," retorted Senator Borah, "so I feel free to say that such an idea is the product of a diseased mind."

Senator Dixon's charge that a single six-year term was desired chiefly by ambitious aspirants for the presidency and the declaration of Senators Bristow and Poindexter that this proposed limitation would be destructive of American principles of government made up the burden of the Progressive fight against the resolution.

Senator Bristow declared the people should be free to choose their own president and to re-elect a president when they believed it was wise. He declared the constitution should include a recall provision, so that when congress is overthrown because an administration is not satisfactory the people could also recall the president and establish a new administration throughout.

### Fortifications Bill Passed by House.

Washington, Jan. 31.—The fortifications appropriation bill, carrying \$5,213,250, an increase of \$1,182,015 over the appropriation last year, was passed by the house. The bill contains a provision which restricts the secretary of war to purchase nothing but material of American manufacture, except in cases where it is for the interest of the United States to purchase material abroad in limited quantities.

### Massacre Prevented by Tin Cans.

Washington, Jan. 31.—The tinkle of tin cans which had been hung on strips, to barbed wire entanglements around the night camp of a detachment of regular troops in the Philippines recently prevented a massacre of the Americans by the fierce Moros tribesmen and resulted in the complete rout of the natives, according to war department reports.

### Stock Exchange Sends Committee.

New York, Jan. 31.—The New York Stock exchange appointed a committee to visit Albany and confer with Governor Sulzer regarding proposed legislation affecting the exchange. The committee included J. B. McMahon, president of the exchange; three ex-presidents, F. K. Sturgis, Rudolph Keppeler and H. R. Tomroy, and six other prominent brokers and bankers.

## LORDS REJECT HOME RULE

Peers Go Through Formality of Voting Against Measure.

### WILL BECOME LAW, ANYWAY.

Large Number of Nobles Assemble in House and Bejeweled Peeresses Throng the Side Galleries—Lack of Ferocity Noted.

London, Jan. 31.—After a two-day discussion the house of lords rejected the home rule bill, 326 to 69. The result was a foregone conclusion.

The speeches aroused little interest, because as the Earl of Halsbury patently observed, the position of the house was now that of "an ordinary debating club"—the peers could express their views and reject the bill, but they could not prevent it from becoming law. Nevertheless, the largest muster of peers since the fateful evening they passed the parliament bill assembled in the house and bejeweled peeresses thronged the side galleries. Lord Lansdowne wound up the debate for the opposition, Lord Morley of Blackburn for the government.

The scene was lacking in the dramatic excitement which accompanied the rejection of Mr. Gladstone's bill in 1893 by a far larger majority, 378.

### Lack of Ferocity Noted.

Lord Morley, in closing the debate, remarked the absence of the ferocity which characterized the debates on the Gladstonian measures and, replying to Lord Lansdowne's warning that the giving of home rule to Ireland would be a menace to England if England ever were involved in serious international trouble, reminded Lord Lansdowne that his own land policy would give Ireland cash or credit to the extent of \$200,000,000 British money, and that Lord Lansdowne scarcely would be likely to do that if he really believed that Ireland was likely to become England's enemy.

Lord Curzon of Kedleston, in a speech earlier in the evening, also referred to the listlessness the public had shown over the bill and to "the deplorable and unutterable flatness of the debates in the house of commons." The division was on party lines, practically the whole of the Episcopal bench voting against the bill.

### FARMERS' UNION DAY

Grand Wheat Prize at Corn Exposition Goes to Nebraskan.

Columbia, S. C., Jan. 31.—G. M. Deming of Fairmont, Neb., was awarded the grand\* champion wheat sweepstakes and the national sweepstakes for hard wheat at the National Corn exposition here. The national sweepstakes in soft wheat was won by John E. Potts of Rea, Mo.

Farmers were urged to adopt more scientific methods in marketing their crops by several speakers. It was suggested that they should co-operate in the direction of regulating the supply so as to stimulate the demand.

This was the National Farmers union day at the exposition and the annual midwinter conference of the organization convened on the grounds. Among the prominent speakers were J. D. Eggleston of Washington of the United States bureau of education and Charles S. Barrett, president of the National Farmers' union.

### RAILROAD MEN AT DINNER

Notable Assemblage Entertained by Pittsburgh Traffic Club.

Pittsburgh, Jan. 31.—With George A. Post of New York, president of the Railway Business association, at hostmaster, the Traffic club of Pittsburgh entertained a notable assemblage of railroad men. The guests who came in private cars, made up into special trains, from New York, Chicago and St. Louis, included some of the leading railroad and industrial executives of the country. The principal addresses were made by Professor Emory R. Johnson of the University of Pennsylvania and Arthur Brisbane, the New York editor.

Mr. Brisbane asked the railroads to lend their assistance in extending the parcel post, arguing that it would increase their revenue and declared the government ownership was coming slowly.

### Earth Slides May Delay Canal Opening.

Washington, Jan. 31.—Recent slide of earth and rock into the Culebra cut will make necessary great activity if the Panama canal is to be opened before the end of the year, as has been predicted by Colonel Goethals. More than 500,000,000 yards of earth and rock have fallen into the cut this month, and engineers fear that an other impending break at Purple hill will add not less than 1,000,000 yards.

### New Indictments Against Mellen.

New York, Jan. 31.—Charles S. Mellen, president of the New York, New Haven and Hartford Railway company, E. J. Chamberlain and Alfred W. Smithers, president and chairman, respectively, of the Grand Trunk railway of Canada, were reindicted by the federal grand jury for violation of the Sherman anti-trust law in alleged monopolistic agreement between the New Haven and Grand Trunk roads.

STOMACH SOUR! GOT INDIGESTION ALSO? "Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach, headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, thought each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery. Get some now this minute, and forever rid yourself of stomach trouble and indigestion.—Advertisement.

John Spurlock of this city was taken to St. Francis hospital Thursday for treatment.

Three Hundred Attended the Various Prayer Meetings Held in Maryville Wednesday Evening.

There was a good attendance at the prayer meetings of the various churches of the city Wednesday evening, and 300 protested against the saloon and sent a telegram to Jefferson City, asking the members of the Missouri legislature to vote for the county local option bill. The telegram sent follows:

"To the members of the Missouri state legislature now in session in Jefferson City:

"Dear Sirs—We, as pastors of our churches, beg leave to inform you that at our prayer meetings this evening 300 persons, mostly heads of families, express their earnest wish for the relief from the saloon promised in the county unit local option bill now before your body. Vote for our homes."

The telegram was signed by the pastors of the churches here.

CHURCH LAW INTRODUCED

Methodist Bishops Have Right to Criticize Members.

Kansas City, Jan. 31.—Church law was introduced by the defense in the trial of the suit in which Mrs. Carrie Cope of Topeka is seeking to recover \$5,000 from each of two defendants, Methodist Bishop Davis E. Moore of Cincinnati and Mrs. George O. Robinson of Detroit, for alleged libel.

The law was outlined by Bishop Charles W. Smith of St. Louis, who while testifying said that Methodist bishops have power over all matters pertaining to the church, both "temporal and spiritual," and that they have a right to criticize any member or official body of the church.

THE DELUGE EFFECT.

Genesis 6:9-22; 7:11-24—Feb. 2.

"For the wages of sin is death; but the gift of God is eternal life, through Jesus Christ our Lord."—Romans 6:23.

SCIENTIFIC Bible students find the Bible story of the Deluge corroborated by Geology, Astronomy and History. The oldest records of Babylonian tell of the Deluge. But no record compares with the Genesis account or gives a connected history of 1656 years from Adam to the Flood.

Geology demonstrates that there have been several great deluges. When we ask whence such floods could come, Astronomy points us to Saturn and Jupiter with their "rings," composed of minerals thrown off as gas when the planets were at white heat. These gases cooled and formed various rings. The rotation of the planets on their axes causes these rings to spread out as great envelopes, and gradually to thin at the equator and thicken at the poles, until they collapse, causing deluges.

The earth once had similar "rings," precipitated one after another, at long intervals during the Six Great Creative Days. God so timed His Plan that the last of earth's rings was still unbroken when man was created. But it had spread into a great canopy or veil. There could be neither rain nor storm under such conditions. (Genesis 1:8.) The temperature of the whole earth was equable, the sun's rays acting upon the canopy as upon the white glass of a hot-house.

Why the Polar Ice?

Geology testifies to a Glacial Period, when great icebergs, carried by floods of water, rushed from the poles toward the equator. Scientists have traced great valleys cut by these icebergs during this period.

The collapse of the canopy caused a deluge at both poles, a flow of great tidal waves toward the equator and sudden, intense cold at the poles. The water froze so rapidly that in recent years animals with grass between their teeth have been dug out of solid polar ice.

The vertical rays of the sun kept the equatorial atmosphere very hot until the trade winds sprang up, distributing the heat over the earth. The equatorial waters were also very hot, until the ocean currents set in. These, like the Gulf Stream, carry the warm equatorial waters toward the poles. These processes, going on for 4400 years, are gradually thawing out the polar regions, and causing large numbers of icebergs to break loose from the polar glaciers, and distress mariners.

Professor George Frederick Wright has dropped a suggestion which fits well with the Bible narrative that Noah's ark apparently remained near the place where it was built. As we understand the professor, the geological evidences are that swift currents laden with icebergs and rocks visited parts of America, Europe and Asia, but seemingly avoided Mt. Ararat, where evidently an eddy formed, for alluvial deposits there are extraordinarily thick.

The Cause of the Deluge.

Let us inquire, Why did not Divine providence precipitate the last ring before man was created? The answer is that God foreknew the rebellion of Satan and permitted the temptation and fall of man solely because He foresaw how ultimate good could be accomplished and valuable lessons be given both men and angels. All of His dealings are along lines of Justice, guided by Love Divine.

Before the Flood wickedness had greatly increased, but not merely from human depravity. Some of the angels became disobedient to God, and by their greater intelligence led mankind into depths of iniquity.—Genesis 6:1-5.

The Bible cites many instances where angels have materialized as human beings. This power appears to have been possessed by angels before the Flood. Some of them married daughters of men and lived as human beings. The children of these angels were human beings—different from Adam's family.

We read that they were giants, "men of renown," who filled the earth with violence. Finally God's displeasure blotted them out of existence in the Deluge. God thus manifested His determination to destroy sin.

Antediluvian sinners of Adam's race belong to the mass of mankind, with whom Messiah will deal during His Millennial Reign of righteousness. After chastisement for wilful disobedience, they may be, if willing, recovered from sin and death, and attain human perfection—at Jesus' cost.

For the sons of angels by human mothers there is no hope. Their existence was not authorized by God. They were not redeemed. They will have no awakening. As for the fallen angels, the Bible tells us that for 4400 years they have been restrained "in chains of darkness," until "the Judgment of the Great Day."—Jude 6.

OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a Hair Tonic of this kind was to make it in the home, which was troublesome and not always satisfactory. Nowdays, almost any up-to-date drugist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty cent bottle of Wyeth's Sage and Sulphur from your drugist, and see what a few days' treatment will do for you. All drugists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agent Koch Pharmacy.

VOLUME 3.

MARYVILLE, MISSOURI, FRIDAY, JAN. 31, 1913.

NO. 208.

## FINISH SATURDAY

BIG DRAINAGE DITCH WILL BE COMPLETED THEN.

## HAS TAKEN TWO YEARS

Forty-Eight Miles of Crooks and Turns In the Nodaway River Have Been Shortened to Only Sixteen.

If no accidents occur to delay the work the biggest drainage project ever undertaken in this section of the country will be completed Saturday or Sunday, when the big dredge, employed by Nodaway drainage district No. 2, will reach a point in the river near the old Whitman mill, says this week's Burlington Junction Post.

The machine will have finished its sixteen mile journey and a straight channel thirty-two feet wide and fifteen feet deep will carry the water of the Nodaway from Braddyville, Ia., to Quitman. The old river bed is forty-eight miles between these points and the new channel will carry the water in a third or less time, and has a drop of three feet to the mile.

The land of the Nodaway river bottom is considered the most fertile in the country, but crops have always been uncertain on account of the overflow during the spring and summer rains. When the seasons were favorable enormous crops of corn and small grain were produced, but the frequent flooding of the low lands make conditions so uncertain that a number of the most enterprising farmers and stockmen who owned land on the bottom investigated the results obtained in other sections of the country that had been drained. They found that where the work was properly done the results had proven highly satisfactory.

In this way the Nodaway drainage district No. 2 was formed, the incorporation being perfected in August, 1910. Bonds to the amount of \$75,000 were sold to Compton & Co. of St. Louis and bids were received from a number of dredging firms. The contract was awarded to C. H. Sternberg & Sons of Chicago at 6.45 cents a cubic yard.

The machines were assembled about a half mile south of the bridge east of Braddyville and work was commenced at once straightening the channel.

The dredge was kept at work day and night, and when in good running order could dig about 200 feet a day. Many accidents to the machinery, however, delayed the work, and it has taken a little more than two years to complete the contract.

According to the contract the ditch was to be twenty-six feet wide at the top and eighteen feet at the bottom. The dredge used in the work, however, was thirty feet wide and the ditch at the top averages about thirty-two feet. The depth varies according to the land passed through, and in some places is twenty feet deep, while in others it is not more than twelve, but the average depth is fifteen feet. The new channel will shorten the course of the river from forty-eight to sixteen miles, and the drop of the current will be three feet to the mile. This will cause the water to flow very swiftly, and with the caving of the banks the channel will cut to four times its present width. In some places near Braddyville, where the channel was first straightened, the ditch is about 100 feet wide. With the swift current a channel of this size will carry away a great amount of water.

As soon as the machine finishes its work the dam across the ditch on the C. E. Walker farm, north of town, will be opened and the current turned into its new course. The two large dams on the old river will not be removed and this will assist in throwing the water into the channel.

7500 acres were included in the project and a tax of \$10 an acre was levied on each acre, which makes the total of \$75,000. The bonds draw 5 per cent interest and the land owner pays on an average of 60 cents a year per acre. It is estimated that this will take care of the interest and pay the bonds off in twenty years. An election of officers and directors is held each year, and this will be done until the end of twenty years. The present officers and directors are: Wm. Blackford, president; G. C. Clary, secretary and treasurer; J. W. Smith, Wm. Carter and Jas. Corken.

The big dredge has been under the management of Louis Sternberg the past year and the machine has made excellent time on the last lap of its

journey. "Louie" seems to have a knack of inducing it to do its work with as little balking as possible and since crossing the road at the Jas. Corkin farm it has behaved fine. A force of eight men are required to "man" the machine. The Sternbergs have made a bid on a large job in Indiana and if they receive the contract it is probable that Louis will go there to assume charge.

A different plan of taxing the land is used in Indiana to the one employed here. When the land is assessed that nearest the river pays the heaviest tax, as it receives the most benefit from the drainage. The further the land is away from the ditch the less tax it pays and some of the farms that are never affected by the over-flow are taxed a small amount on account of the advantage in drainage. This method is regarded as best for all concerned.

## PIRATES AND NORMALS WIN.

High School and Business College Fives Defeated in City Basket Ball Tournament.

Standing of the Teams.		Won.	Lost.	Pct.
Normal	.....	8	0	1.000
Pirates	.....	4	4	.500
High school	.....	4	4	.500
Business college	.....	0	8	.000

Both games in the city basket ball tournament played Thursday afternoon at the Normal gym were won by overwhelming scores. In the first game the Pirates smothered the Business college team by a score of 59 to 8, and in the final battle between the high school and the Normal the teachers had little trouble in winning by a 34 to 6 count. The collegians could put up but little opposition to the buccaners, and Hoffman, Eek and Wray scored baskets almost at will. Wray headed the list with ten field goals.

In the first half of the Normal-high school game the highs were held scoreless, while the teachers counted thirteen points. In the final period the high school five managed to count six points on two field goals and a couple of free throws, and the Normals got 21. Vern Seymour, the Normal's twinkler at guard demonstrated his ability to perform at forward by caging six field goals.

Next Thursday will mark the close of the tournament with the leaders playing the cellar champs and the Pirates and highs fighting it out for second place. There is no doubt as to the outcome of the first game, but the Pirate-high school scrap promises to be a "hummer." Each team has won a game, and naturally both teams predict a victory. The writer predicts a victory for the Pirates, due to the fact that the Pirates have improved wonderfully since the last meeting, while the highs seem to have "gone back."

## GAME TONIGHT AT NORMAL.

Team Will Play Wesleyan College of Cameron and Promises to Be a Good One.

"A Normal victory by a close score" is the general prediction as to the outcome of the basket ball game tonight at the Normal gym between the green and white quintet and the Missouri Wesleyan five from Cameron. The Methodists played Tarkio college at Tarkio last night, and a report reached here that they defeated Tarkio, but at press time the Wesleyan boys hadn't arrived in the city to verify or deny the report. However, the locals have reason to know that if Wesleyan is putting up the article of ball that will win from Tarkio on their home floor, Normal stands a slim chance of getting away with a win. Coach Moore announced the following line-up for tonight's game, which starts at 8 o'clock: Vandersloot (captain), and Daise, forwards; Perrin, center; McClintock and Seymour, guards; Quinn, Lamar, Woodward and Strader, substitutes.

## RIDE TO SCHOOL A NEWSY LETTER

CHAMPION HILL DISTRICT HAULS CHILDREN TO PARNELL.

## HAVEN'T MISSED A DAY

District Finds It Cheaper to Pay Tuition and Drayage and More Satisfactory Than Maintain School.

The only district rural school in the county, and probably in Northwest Missouri that is transporting pupils from that school district to another is the Champion Hill school district, near Parnell. The Champion Hill district is abandoned for this year and the district is sending eight pupils in that district to the Parnell school, and three pupils to the Pleasant View school.

The Champion Hill district pays the expenses of the transportation and the tuition for the Parnell school. A three-seated hack is used and it is all enclosed. The cost to the district is much less by sending them to Parnell than to run a school in that district, and the people are better pleased with the plan, as greater interest is taken in the school work by the pupils than heretofore, and that there is more rivalry and inspiration among them.

The transportation plan has worked to good advantage this winter, and the eight pupils have attended school every day, with the exception of days of sickness. The weather has been very good and not a single day has been missed on this account. One of the Parnell teachers lives in that school district and she goes every morning with the pupils in the hack to Parnell. She is Miss Angie Walder.

The plan of transportation is still an experiment in this part of the country, but it is working to great success and probably other schools will take the plan up next year.

## PRATHER HOUSE BADLY BURNED.

Fire Which Started in Attic Destroyed the Attic and the Second Story of Residence.

The old Prather home, on West Second street, which is owned by Miss Bettie Prather, who now lives in Brookline, Mass., was badly damaged by fire this Friday morning. The house was occupied by Mr. and Mrs. A. O. Mason and family.

The cause of the fire is not known, but it started in the attic, and the entire roof was ablaze at once. Neighbors first discovered the blaze and notified the Mason family, and also the fire department. It took the fire department about two hours or so before the fire could be put out, owing to the hard time the firemen had in fighting the fire, and owing to the wind and cold weather. During this time coffee was served to the firemen by F. P. Reuillard, Mrs. G. A. Nash, Garten & Trusty, Charles C. Hellmers and Mr. and Mrs. R. G. Sanders.

It is not known what the damages will be, but they are estimated at \$1,500 to \$2,000. The house was fully insured. A few household goods of Mr. Mason were also damaged.

The Prather house is an old landmark of Maryville, the house being built about fifty years ago. The Prather family has made their home there for many years, until a few years ago, and the residence has been remodeled a number of times.

## MANY WENT FROM HERE.

Mothers' Circle Guests of Sister Club at Pickering Short Course.

Quite a large company went to Pickering Friday to attend the short course institute being held by the state board of agriculture. The afternoon program is intended to be of especial interest to the women, because the Women's club of that place asked for speakers that would give them special instructions for home work.

The Mothers' Circle of Maryville accepted an invitation from the Pickering club to be its guest today, but owing to the severe change in the weather all the members could not go. Those who attended were Mrs. W. C. VanCleve and her guest, Mrs. J. S. VanCleve of Moberly, Mo.; Mrs. Leslie Dean, Mrs. Omar Catterson, Mrs. D. W. Snoderly, Mrs. J. R. Brink, Mrs. George Moore, Mrs. S. E. Farmer, Mrs. William Everhart, Mrs. E. B. Sheldon, Mrs. W. A. Townsend, Mrs. E. T. Godsey, Mrs. J. W. Ray, Mrs. D. E. McDonald.

Miss Jessie Mutz, who has charge in domestic science at Pickering, accompanied the club to Pickering, also County Superintendent Oakerson.

## A NEWSY LETTER

BILLY JOB RINGS THE CHANGES FROM GRAVE TO GAY.

## THERE'S TOO MANY JOBS

Sinecures With Big Pay That Should Be Abolished—Talk on Fortune Teller Bill Creates Merriment.

(By William Job.)

Jefferson City, Jan. 30.—Both houses of the assembly adjourned Wednesday before noon in honor of Mike K. McGrath, the news of whose death reached the assembly at the time when the committee substitute for the McGrath municipal primary bill was up for consideration. I can remember Mike McGrath in state politics as far back as I can remember anybody. He was secretary of state 16 years and has represented his district in the state senate and house of representatives several times. His desk and chair are draped in mourning and today a committee from both houses was appointed to attend the funeral, and floral offerings were sent.

The city was full of new faces yesterday as a delegation from St. Louis was before the joint senate and house committee on municipal corporations in behalf of the Bates home-rule bill. There was also a gathering of good roads people from all over the state to discuss road legislation. It seems they had a fall out over proposed laws and came to very little understanding. Congressman Shackelford came from Washington to attend this meeting, and delivered an address before the highway association explaining the good features of the bill he has now pending in congress. One of the features is that the postal department pay an annual rental of \$25 per mile for rock roads, \$20 for gravel roads and \$15 for dirt roads. These roads are to be rural mail routes, and the above amounts are to be applied on the roads and they are to be kept in proper condition by the county for the mail services. The committee on roads are flooded with bills and all kinds of information that is both practical and radical on the subject. Different conditions in different parts of the state may be partly the cause of it. The roads leading out of Jefferson City are few and far between, on account of the roughness of the county, but all the main roads are good crushed rock roads. Our roads run on lines. Roads here run any old way you can find a place for them, and very seldom more than a few rods in the same direction. When you think you can drive out in the country on one road and back on another you are fooling yourself. You have got to come back to the city and start over again. I read somewhere—I believe it was in the Bible, but I am not sure of that, however—that in olden times all roads led to Rome. I never could understand how that was until I came here. All roads here lead to Jefferson City—that is, wagon roads—and I am of the opinion the same conditions existed in the time of Rome.

There was quite a delegation of county clerks here yesterday working for an increase in pay for deputy hire. I am of the opinion in counties like Nodaway there should be an increase of a few hundred dollars.

Representative Claiborn of St. Joseph has introduced a bill to continue the present contract system of the employment of convict labor at the prison, but increasing it from 70 cents per day to \$1 per day, 30 cents of which must go to the families of the convict or held in trust for him until his time expires. I think it's a good bill and ought to pass, but believe the state should receive \$1.50 per day. The automobile law has passed and is ready for the governor's signature. The suffragettes have begun to get busy and we can expect some legislation along that line. It seems that Governor Major's utility bill is going to meet with opposition all along the line, and if it passes may carry a number of amendments. It seems that some of the legislative body think of nothing else but to prepare bills to create more offices and increase salaries. There are quite a number of posts now that cost the taxpayers a good sum that could be done away with very easily. State game warden, hotel inspector, etc., are nothing but a joke. There are numerous petitions read every day from every part of the state, both in the senate and house, asking for the passage of the county unit bill. I think several petitions have been received asking that the law be so

changed that the county will be liable for damages to anyone through the neglect of bridges and roads.

Senators Stone and Reed are in the city now.

George Walker, the Maryville contractor, was here figuring with a Jefferson City architect.

The primary bill was up for engrossment in the house today. An amendment was offered giving the state committee the right to name the place of meeting. There was but one vote against the amendment and engrossment. The object of the amendment was to steer clear of being robbed by the Madison hotel. Col. Bill Phelps made the statement on the floor that they had charged him \$25 for a cot, supper and breakfast. Representative Boyd made the same statement. Representative Hays stated they charged him \$20. Representative Moore made the statement that the manner Jesse James used to secure money was more honorable.

The fortune tellers bill was up for engrossment today. Representative Orr was telling how a fortune teller secured \$1,000 from an ignorant old lady down in his county to tell her where her husband went after death. Representative Dumm asked to interrogate Mr. Orr, who consented. He asked him if he didn't think his wife would give a like amount to know where he went, which brought the house down. Mr. Orr answered by saying his wife knew very well where he would go.

I suppose people are the same the world over. On my way from breakfast the other morning I got into a jam in front of a department store that in some respects was like the governor's reception. On inquiring the cause, I learned there was a lace sale on for the morning and ladies of all age, size and color were tramping each other's corns while they waited for the doors to open.

## SUIT ON NOTE DISMISSED.

The Case of Karl Schmitt vs. Joseph Wolfer of Clyde Was Settled Out of Court.

The case of Karl Schmitt of Idaho against Joseph Wolfer of Clyde was dismissed Friday as the suit has been settled out of court.

In August, 1910, Mr. Wolfer went to Idaho and purchased 160 acres of land for \$100 an acre, and gave his note for \$14,000 for the balance to Karl Schmitt. Mr. Wolfer soon learned of facts which made him think he had been cheated and so he refused to pay a \$4,000 note which was due, and also payment on three other notes which were not due. Schmitt brought suit in Maryville for the \$4,000 note, and the case was settled out of court by George Robb Ellison, of Shinabargar, Blagg & Ellison, who recently returned from Idaho, where he was in conference with Mr. Schmitt. By the settlement all of the notes were returned to Wolfer.

## RETURNED FROM NEW MEXICO.

Editor Fred Hull Back From the Sunny South and the Full Possession of His Health.

Editor and Mrs. J. F. Hull and little daughter, Elizabeth, returned Thursday night from a several weeks' visit in Artesia, New Mexico, where Mr. Hull has been for the benefit of his health. He was much weakened from a sick spell when he went there, but the change and rest has worked a miracle and he is now in full possession of his usual good health and fine spirits. He will be back at the Tribune office on Saturday.

His many friends are glad to have him back and to know that he has regained his health.

## SPECIAL COUNCIL MEETING.

Met Friday Afternoon and Authorized B. of P. W. to Get Remainder of Money.

A special session of the city council was held Friday afternoon and permission was granted to the board of public works to get the remaining \$20,000 out of the \$100,000 water works bond issue. Only \$80,000 was taken out of the \$100,000 issue. When the bond issue was sold the entire issue was to be taken by the Commerce Trust company, but only \$80,000 was received for eighty bonds. The money for the remaining bonds will be received soon.

## Brought Wife to Hospital.

William T. Goodman of Coin, Ia., brought his wife to St. Francis hospital on Thursday, where her thumb on one of her hands was taken off.

Mrs. Nic Craig returned to her home in St. Joseph Wednesday evening from a day's visit with her sister, Mrs. H. J. Schaub.

## A HOUSE VICTORY

DRYS PUT UNIT BILL ON CALENDAR IN SPITE OF REPORT.

## WILL PASS THE HOUSE

Big Majority on Test Vote Indicates Easy Sledding in Lower Branch—Would Drive Out Saloons.

Special to The Democrat-Forum.

Jefferson City, Jan. 31.—The "wets" and "drys" went to the mat tonight on the county unit local option bill before the house committee on criminal jurisprudence, and the committee reported the bill to the house adversely by a vote of 6 to 5.

On motion of Representative C. M. Hay of Calloway the bill was placed on the calendar of the house, notwithstanding the adverse report, and was carried by an overwhelming majority.

The indication, according to reports is favorable to the bill passing the house.

If the bill should pass it would close the saloons in Maryville and other towns in Missouri. Frank Farris, a former state senator, represented the liquor men, and C. M. Hay the "drys." A large delegation of W. C. T. U. women asked the committee to report the bill favorably.

## FUNERAL SERVICES AT HOME.

Rev. Claude J. Miller Conducted the Services of the Late W. H. Hawkins—Burial in Oak Hill.

The funeral services for the late W. H. Hawkins, whose death occurred in Oklahoma City, Okla., Wednesday morning, were held at the home of his daughters, Misses Laura and Ada Hawkins, at Seventh and Mulberry streets, at 3 o'clock Friday afternoon, the body having arrived on the noon Burlington train.

The services were conducted by Rev. Claude J. Miller of the First Christian church. Burial took place in Oak Hill cemetery. The pallbearers were Mr. J. R. Brink, Judge J. H. Saylor, S. G. Gillam, W. W. Glass, Ed F. Hamlin, J. W. Ray.

## LEFT FOR JEFFERSON CITY.

W. A. Blagg and President Taylor to Capitol City to Work For Normal Appropriations.

W. A. Blagg, president of the board of regents, and Dr. H. K. Taylor, president of the Normal, left Thursday evening for Jefferson City, where they are to work in the interest of the Normal appropriations. The appropriation committee was in session at that place and Mr. Blagg and Dr. Taylor appeared before the committee and urged that the Normal here be given \$123,000, the amount they are wanting.

#### Wedding Near Barnard.

A quiet wedding took place Thurs-  
day at noon, at the home of Mr. and  
Mrs. William King of near Barnard,  
when their daughter, Miss Afie, was  
united in marriage to Mr. E. P. Her-  
ndon of St. Joseph. The Rev. W. A.  
Chapman of Rosendale officiated. The  
bride was prettily attired in cream  
silk. After the ceremony a course  
wedding dinner was served by the  
bride's mother, to the following  
guests: Mr. and Mrs. Byron Stotts  
and family, Mr. and Mrs. Morgan  
Kling and family, Miss Hazel Curnutt,  
Miss Li Rhoads, Misses Sarah and  
Nannie Kling, Messrs. Fred and Chal-  
mers Kling.

#### Social Neighbors' Club Met.

The Social Neighbors' club was very  
pleasantly entertained by Mr. and Mrs.  
Ira Ringgold at their home Wednes-  
day evening. The early part of the  
evening was spent in social chat, after  
which an oyster supper was served by  
the hostess, who was assisted in serv-  
ing by Mrs. Lester Ringgold. After  
supper the business session was held,  
and the remainder of the evening was  
spent in music, both vocal and instru-  
mental. Mr. and Mrs. Everett Ulmer  
and son and daughter were guests of  
the club. Others present were Mr. and  
Mrs. James Neal, Mr. and Mrs. New-  
ton LeGrand and daughter, Mr. and  
Mrs. Ellet Trueblood and family Mr.  
and Mrs. Lester Ringgold and son,  
Miss Clara Neff and the host and host-  
ess and family. The next meeting will  
be with Mr. and Mrs. Newton LeGrand,  
in February.

#### Miscellaneous Shower for Bride.

Mrs. Antoinette Craig-Matthews, a  
December bride, was given a miscel-  
laneous shower Thursday evening at  
the home of Rev. and Mrs. Lee Harrel  
by the Amoma class of the First Baptist  
church Sunday school, of which she  
is a member. Mrs. Matthews re-  
ceived a large and varied assortment  
of beautiful presents, and with the  
usual instructions for their use. She  
will leave the middle of February for  
her new home at Liberty, Mo. Her  
husband, Rev. O. G. Matthews, will oc-  
cupy the pulpit of the First Baptist  
church of this city, Sunday morning  
and evening. The evening was spent  
in playing games. The members of the  
class present were Mrs. Stella Eppen-  
son, Mrs. M. H. Borrusch, Mrs. John

Borrusch, and Mabel Grace Borrusch,  
the Amoma class baby; Mrs. D. E. Mc-  
Donald, Miss Laurinda Craig of Bole-

Miss Golda Adcock.

#### Miss Helen Ford Married.

Mrs. J. A. Ford of 128 South Main  
street received a letter Friday morn-  
ing from her daughter, Miss Helen  
Ford, which stated that by the time  
she received her letter she would be  
the wife of Mr. Glade Bradley, who has  
been in the real estate business in  
Maryville several months with his  
brother-in-law, Byron Rhodes. Miss  
Ford left Maryville Thursday fore-  
noon on the Wabash train, telling the  
newspaper reporters there that she  
was going to Grand Island, Neb., for  
a month's visit with Mr. and Mrs. John  
Force. Mr. Bradley accompanied her  
to the train, and it was noticed that he  
got on the train as it was leaving the  
station. Nothing was thought of this,  
however, as it was supposed he would  
accompany her as far as Conception.  
The young people have been keeping  
company for several months, but their  
attachment was not looked upon as  
anything serious by friends or relatives,  
and the news in Miss Ford's letter  
to her mother is a surprise to every-  
one. The letter did not state when  
or where they were to be married.  
Mr. Bradley wrote a letter to his  
brother-in-law, Mr. Rhodes, which was  
received Friday morning, telling him  
he would be married by the time he re-  
ceived the letter, and that they would  
make their home in Grand Island,  
Neb., where he has a position.

made ready for a social dance, in  
which a large number of friends of  
the bride and groom engaged until  
midnight, when a luncheon was  
served. The guests took their de-  
parture, wishing the happy couple a

## MADAM! IF YOU DON'T FEEL RIGHT TAKE DELICIOUS "SYRUP OF FIGS"

WASTE-CLOGGED BOWELS, TORPID LIVER AND DECAYING FOOD IN STOMACH CAUSE THE SICK HEADACHE, GAS, BACKACHE, SALLOWNESS, BILIOUSNESS AND INDIGESTION.

All women get bilious, headachy and constipated—simply because they don't exercise enough. They don't eat coarse food, or enough fruit and green vegetables. Those are nature's ways of keeping the liver and thirty feet of bowels active; but very few women employ them. The next best way is delightful, fruity Syrup of Figs.

Nearly all ills of women can be overcome with Syrup of Figs alone. There is no need to have sick headache, backache, dizziness, stomach sour and full of gases, bilious spells, sallowness, coated tongue, bad breath, bad complexion, nervousness and depression. The surest and safest remedy is one or two teaspoonfuls of delicious Syrup of Figs. Try this tonight—you'll feel splendid in the

morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regular; no more constipation, gases, pains and aches.

It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best. But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse with contempt, the so-called Fig Syrups sometimes substituted to fool you. The true, genuine, bears the name California Fig Syrup Company; look for this on the label.—Advertisement.

## PRESIDENTIAL RECALL BEATEN

Senator Bristow Seeks to Amend  
Proposed Six-Year Term Act.

### OTHER PROPOSALS PENDING.

Wide Variety of Conditions and Exemptions Before Senate—Dixon Questions Motives of Those Who Want Change.

Washington, Jan. 31.—Presidential terms ranging all the way from two to six years, prohibitions against second terms and third terms; exemptions that would affect Roosevelt, Taft and Wilson, and proposals for the recall and the direct popular election of presidents, were thrust into the senate in rapid succession in the first day's consideration of the constitutional amendment limiting a president to a single term of six years.

In a session filled with lively debate, Senator Bristow's proposal that a president could be recalled at any regular election was voted down, 58 to 10, and Senator Hoke Smith's amendment to make the single term four years, instead of six, was defeated, 42 to 23.

Over a dozen amendments were pending when the senate recessed.

Sensors Dixon and Poindexter (Prog.), Bristow (Prog-Rep.) and Lodge (Rep.) led the fight against a restriction of the presidential term.

Senator Williams (Dem.) proposed a four-year term with the privilege of one re-election, but his amendment was so drawn as to prevent Colonel Roosevelt from seeking another election.

### Ten for Presidential Recall.

The defeat of the Bristow amendment for recall of the president followed a short debate, in which Senator Bristow urged that to make the federal administration properly responsive to public demand the people should have the right to change the president when they change congress. The vote on the recall amendment mustered ten votes only in its favor, the following senators voting for it: Ashurst, Bristow, Clapp, Dixon, Gronna and Poindexter (Prog-Rep.); Martine, Owen, Perky and Thomas (Dem.).

The candidacies of Roosevelt, Wilson, Bryan and Taft figured in the fight throughout the day. Senator Borah said President Taft had not used the power of his office for his own re-election in 1912 to any greater extent than President Roosevelt had used it in 1908 for the election of Mr. Taft.

"President Roosevelt wanted Mr. Taft nominated because he believed Taft would carry out the principles to which the Roosevelt administration was devoted," said Senator Borah. "A president who would not use every effort to perpetuate his policies would not be worth his salt."

### Answers Senator Hitchcock.

Senator Hitchcock asked if it was "not generally believed Roosevelt favored Taft's nomination in 1908 so he himself could be a candidate in 1912." "I know the senator himself does not entertain such a thought," retorted Senator Borah, "so I feel free to say that such an idea is the product of a diseased mind."

Senator Dixon's charge that a single six-year term was desired chiefly by ambitious aspirants for the presidency and the declaration of Senators Bristow and Poindexter that this proposed limitation would be destructive of American principles of government made up the burden of the Progressive fight against the resolution.

Senator Bristow declared the people should be free to choose their own president and to re-elect a president when they believed it was wise. He declared the constitution should include a recall provision, so that when congress is overthrown because an administration is not satisfactory the people could also recall the president and establish a new administration throughout.

### Fortifications Bill Passed by House.

Washington, Jan. 31.—The fortifications appropriation bill, carrying \$5,213,250, an increase of \$1,182,015 over the appropriation last year, was passed by the house. The bill contains a provision which restricts the secretary of war to purchase nothing but material of American manufacture, except in cases where it is for the interest of the United States to purchase material abroad in limited quantities.

### Massacre Prevented by Tin Cans.

Washington, Jan. 31.—The tinkle of tin cans which had been hung on tripes to barbed wire entanglements around the night camp of a detachment of regular troops in the Philippines recently prevented a massacre of the Americans by the fierce Moro tribesmen and resulted in the complete rout of the natives, according to war department reports.

### Stock Exchange Sends Committee.

New York, Jan. 31.—The New York Stock exchange appointed a committee to visit Albany and confer with Governor Sulzer regarding proposed legislation affecting the exchange. The committee included J. B. McMahon, president of the exchange; three ex-presidents, P. K. Sturgis, Rudolph Keppler and H. R. Tomroy, and six other prominent brokers and bankers.

## LORDS REJECT HOME RULE

Peers Go Through Formality of  
Voting Against Measure.

### WILL BECOME LAW, ANYWAY.

Large Number of Nobles Assemble in House and Bejeweled Peeresses Throng the Side Galleries—Lack of Ferocity Noted.

London, Jan. 31.—After a two-day discussion the house of lords rejected the home rule bill, 325 to 69. The result was a foregone conclusion.

The speeches aroused little interest, because as the Earl of Halsbury pathetically observed, the position of the house was now that of "an ordinary debating club"—the peers could express their views and reject the bill, but they could not prevent it from becoming law. Nevertheless, the largest muster of peers since the fateful evening they passed the parliament bill assembled in the house and bejeweled peeresses thronged the side galleries.

Lord Lansdowne wound up the debate for the opposition, Lord Morley of Blackburn for the government.

The scene was lacking in the dramatic excitement which accompanied the lords' rejection of Mr. Gladstone's bill in 1893 by a far larger majority, 378.

### Lack of Ferocity Noted.

Lord Morley, in closing the debate, remarked the absence of the ferocity which characterized the debates on the Gladstonian measures and, replying to Lord Lansdowne's warning that the giving of home rule to Ireland would be a menace to England if England ever were involved in serious international trouble, reminded Lord Lansdowne that his own land policy would give Ireland cash or credit to the extent of \$200,000,000 British money, and that Lord Lansdowne scarcely would be likely to do that if he really believed that Ireland was likely to become England's enemy.

Lord Curzon of Kedleston, in a speech earlier in the evening, also referred to the listlessness the public had shown over the bill and to "the deplorable and unutterable flatness of the debates in the house of commons."

The division was on party lines, practically the whole of the Episcopal bench voting against the bill.

### FARMERS' UNION DAY

Grand Wheat Prize at Corn Exposition Goes to Nebraskan.

Columbia, S. C., Jan. 31.—G. M. Deming of Fairmont, Neb., was awarded the grand champion wheat sweepstakes and the national sweepstakes for hard wheat at the National Corn exposition here. The national sweepstakes in soft wheat was won by John E. Poits of Rea, Mo.

Farmers were urged to adopt more scientific methods in marketing their crops by several speakers. It was suggested that they should co-operate in the direction of regulating the supply so as to stimulate the demand.

This was the National Farmers union day at the exposition and the annual midwinter conference of the organization convened on the grounds. Among the prominent speakers were J. D. Eggleston of Washington of the United States bureau of education and Charles S. Barrett, president of the National Farmers' union.

### RAILROAD MEN AT DINNER

Notable Assemblage Entertained by Pittsburgh Traffic Club.

Pittsburgh, Jan. 31.—With George A. Post of New York, president of the Railway Business association, as toastmaster, the Traffic club of Pittsburgh entertained a notable assemblage of railroad men. The guests who came in private cars, made up into special trains, from New York, Chicago and St. Louis, included some of the leading railroad and industrial executives of the country. The principal addresses were made by Professor Emory R. Johnson of the University of Pennsylvania and Arthur Brisbane, the New York editor.

Mr. Brisbane asked the railroads to lend their assistance in extending the parcel post, arguing that it would increase their revenue and declared the government ownership was coming slowly.

### Earth Slides May Delay Canal Opening.

Washington, Jan. 31.—Recent slide of earth and rock into the Culebra cut will make necessary great activity if the Panama canal is to be opened before the end of the year, as has been predicted by Colonel Goethals. More than 200,000 yards of earth and rock have fallen into the cut this month, and engineers fear that another impending break at Purple hill will add not less than 1,000,000 yards.

### New Indictments Against Mellen.

New York, Jan. 31.—Charles S. Mellen, president of the New York, New Haven and Hartford Railway company, E. J. Chamberlain and Alfred W. Smithers, president and chairman, respectively, of the Grand Trunk railway of Canada, were reindicted by the federal grand jury for violation of the Sherman anti-trust law in alleged monopolistic agreement between the New Haven and Grand Trunk roads.

## STOMACH SOUR? GOT INDIGESTION ALSO?

### "Pape's Diapiesin" Makes Upset Stomachs Feel Fine in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach, headache—this is indigestion.

A full case of Pape's Diapiesin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, thought each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery. Get some now this minute, and forever rid yourself of stomach trouble and indigestion.—Advertisement.

John Spurlock of this city was taken to St. Francis hospital Thursday for treatment.

### MANY SIGNED TELEGRAM.

Three Hundred Attended the Various Prayer Meetings Held in Maryville Wednesday Evening.

There was a good attendance at the prayer meetings of the various churches of the city Wednesday evening, and 300 protested against the saloon and sent a telegram to Jefferson City, asking the members of the Missouri legislature to vote for the county local option bill. The telegram sent follows:

"To the members of the Missouri state legislature now in session in Jefferson City:

"Dear Sirs—We, as pastors of our churches, beg leave to inform you that at our prayer meetings this evening 300 persons, mostly heads of families, express their earnest wish for the relief from the saloon promised in the county unit local option bill now before your body. Vote for our homes."

The telegram was signed by the pastors of the churches here.

### CHURCH LAW INTRODUCED

Methodist Bishops Have Right to Criticize Members.

Kansas City, Jan. 31.—Church law was introduced by the defense in the trial of the suit in which Mrs. Carrie Cope of Topeka is seeking to recover \$5,000 from each of two defendants. Methodist Bishop Davis E. Moore of Cincinnati and Mrs. George O. Robinson of Detroit, alleged libel.

The law was outlined by Bishop Charles W. Smith of St. Louis, who while testifying said that Methodist bishops have power over all matters pertaining to the church, both "temporal and spiritual," and that they have a right to criticize any member or official body of the church.

## BROOKLYN TABERNACLE

### BIBLE STUDY ON THE DELUGE EFFECT.

Genesis 6:9-22; 7:11-24—Feb. 2.  
"For the wages of sin is death; but the gift of God is eternal life, through Jesus Christ our Lord."—Romans 6:23.

**S**cientific Bible students find the Bible story of the Deluge corroborated by Geology, Astronomy and History. The old records of Babylonia tell of the Deluge. But no record compares with the Genesis account or gives a connected history of 1656 years from Adam to the Flood.

Geology demonstrates that there have been several great deluges. When we ask whence such floods could come. Astronomy points us to Saturn and Jupiter with their "rings," composed of minerals thrown off as gas when the planets were at white heat. These gases cooled and formed various rings. The rotation of the planets on their axes causes these rings to spread out as great envelopes, and gradually to thin at the equator and thicken at the poles, until they collapse, causing deluges.

The earth once had similar "rings," precipitated one after another, at long intervals during the Six Great Creative Days. God so timed His Plan that the last of earth's rings was still unbroken when man was created. But it had spread into a great canopy or veil. There could be neither rain nor storm under such conditions. (Genesis 1:5) The temperature of the whole earth was equable, the sun's rays acting upon the canopy as upon the white glass of a hot-house.

### Why the Polar Ice?

Geology testifies to a Glacial Period, when great icebergs, carried by floods of water, rushed from the poles toward the equator. Scientists have traced great valleys cut by these icebergs during this period.

The collapse of the canopy caused a deluge at both poles, a flow of great tidal waves toward the equator and sudden, intense cold at the poles. The water froze so rapidly that in recent years animals with grass between their teeth have been dug out of solid polar ice.

The vertical rays of the sun kept the equatorial atmosphere very hot until the trade winds sprang up, distributing the heat over the earth. The equatorial waters were also very hot, until the ocean currents set in. These, like the Gulf Stream, carry the warm equatorial waters toward the poles. These processes, going on for 4400 years, are gradually thawing out the polar regions, and causing large numbers of icebergs to break loose from the polar glaciers, and distress mariners.

Professor George Frederick Wright has dropped a suggestion which fits well with the Bible narrative that Noah's ark apparently remained near the place where it was built. As we understand the professor, the geological evidences are that swift currents laden with icebergs and rocks visited parts of America, Europe and Asia, but seemingly avoided Mt. Ararat, where evidently an eddy formed, for alluvial deposits there are extraordinarily thick.

### The Cause of the Deluge.

Let us inquire, Why did not Divine providence precipitate the last ring before man was created? The answer is that God foreknew the rebellion of Satan and permitted the temptation and fall of man solely because He foresaw how ultimate good could be accomplished and valuable lessons be given both men and angels. All of His dealings are along lines of Justice, guided by Love Divine.

Before the Flood wickedness had greatly increased, but not merely from human depravity. Some of the angels became disobedient to God, and by their greater intelligence led mankind into depths of iniquity.—Genesis 6:1-5. The Bible cites many instances where angels have materialized as human beings. This power appears to have been possessed by angels before the Flood. Some of them married daughters of men and lived as human beings. The children of these angels were human beings—different from Adam's family.

"All flesh died."

of renown," who filled the earth with violence. Finally God's displeasure blotted them out of existence in the Deluge. God thus manifested His determination to destroy sin.

Antediluvian sinners of Adam's race belong to the mass of mankind, with whom Meesiah will deal during His Millennial Reign of righteousness. After chastisement for willful disobedience, they may be, if willing, recovered from sin and death, and attain human perfection—at Jesus' cost.

For the sons of angels by human mothers there is no hope. Their existence was not authorized by God. They were not redeemed. They will have no awakening. As for the fallen angels, the Bible tells us that for 4400 years they have been restrained "in chains of darkness," until "the Judgment of the Great Day."—Jude 6.

This subject is too large for satisfactory treatment here. We will supply free a treatise, on receipt of a postcard request, addressed to Brooklyn Tabernacle, P. O. Box 111.

## OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a Hair Tonic of this kind was to make it in the home, which was troublesome and not always satisfactory. Now, days, almost any up-to-date druggist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.
